

Contour Series

Groove Tiles

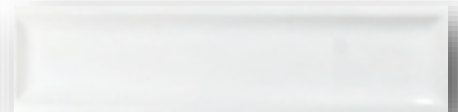

A fresh approach to a classic style. Within our Contour Series, the Groove Tile is a 3" x 12" reverse bevel style that lends dimension and texture to a very classic look. Available in six colors, each with a matching bullnose. The reverse bevel highlights the light and dark color combination in each piece created by the waterfall glaze technology. Reflecting light plays with the glossy finish and the dimension of the tile, creating a visual masterpiece that brings out shapes and angles that give long lasting interest to your design.
