

Modern Edge

Our ever popular 2 x 6 interlocking format is back by popular demand. This interlocking pattern with a skinny reverse bevel has been improved and four well sought after colors have been revived. Made with 100% recycled glass powder, the glass and color glaze are mixed together and fired at over 2000 degrees, making the material durable. It has 0% water absorption, making it usable in many applications. This new glass firing technology has decreased color variation, and made the product stronger and lighter.
